*Data based on FY24 information

Powering the Future of the Tennessee Valley Region

TVA is the nation's largest public power provider, delivering essential services to the people of the Valley region since 1933. We partner with **153 local power companies** to serve **10 million people** and about **800,000 businesses** in the **seven-state Tennessee Valley region**, including parts of Alabama, Georgia, Kentucky, Mississippi, North Carolina, Tennessee and Virginia. We serve the people of the region by providing **affordable, reliable energy**; caring for **natural resources**, and **bringing good jobs to local communities**. Our region's energy needs are growing, and TVA is focused on ensuring our region has a secure, **American-made energy future**.

Driving economic growth and new jobs

TVA's low industrial rates and reliable, clean energy bring businesses and jobs to the region. In the past five years, we've helped attract new jobs and retain existing jobs.

 **More than 91,000+**
New Jobs Projected
235,000
Retained Jobs Projected

 **\$45.9 Billion**
In Projected
Capital investments

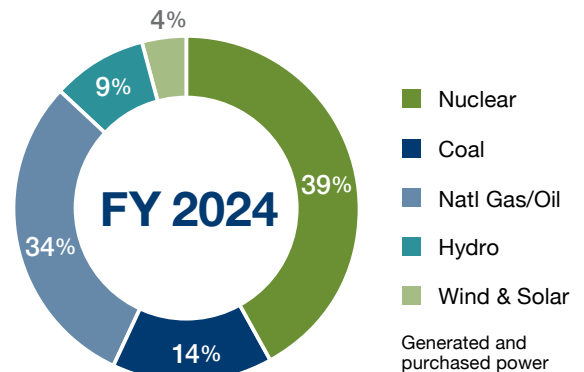

Delivering affordable, reliable, clean energy

TVA operates one of nation's largest generation portfolios – diverse and clean

 **Lower residential power rates than those paid by Over 80%**
of the customers of the top 100 U.S. utilities

 **Investing in New Generation and New Technologies**

Robust and Diverse Energy Supply

Reducing emissions, stewarding resources

TVA is a committed environmental steward and national leader in reducing carbon emissions

 **Caring for over 40,000 Miles**
Of rivers, streams and tributaries, including 652-mile Tennessee River System

 **Prevented over \$10.1 Billion**
In potential flood damage since 1933

50 Million Tons of products shipped each year on TVA navigable waterways

Supporting our communities and their needs

TVA is a part of every community we serve

 **Returns 5% of power revenues**
to states and local communities as tax equivalent payments

 **Helped so far 1,254 Families & 106 Public Schools**
Improve energy efficiency through Uplift programs

 **Contributions include nearly \$2.5 Million**
To STEM, robotics, and other education programs in partnership with BVI Inc., Ripken Foundation and others
