Powering the Future of the Tennessee Valley Region

TVA has delivered essential services for the people of the seven-state Tennessee Valley region since 1933. We partner with 153 local power companies to serve 10 million people and about 800,000 businesses across the region. As a publicly owned utility, we bring the public and private sectors together with our 10,900 employees to deliver on TVA's mission of service by providing affordable, reliable, clean energy, caring for our community's natural resources and bringing good jobs to the region.

Driving economic growth and new jobs

TVA's low industrial rates and reliable, clean energy bring businesses and jobs to the region. In the past five years, we've helped attract new jobs and retain existing jobs.
