

## Our Impact

We proudly serve the people and communities of **North Carolina** by supplying energy for **46,706 people** through their **four local power companies** and for **two direct-served customers** in the state. Reliable, affordable, clean energy from TVA helps North Carolinians **across more than 5,500 square miles** stay connected, save money and get ahead. Our work is having an impact:

## Investing in North Carolina communities in FY 2023

- 50**  
TVA employees
- 222**  
TVA retirees
- \$280 Million**  
In purchases from North Carolina businesses
- \$3.9 Million**  
Paid in lieu of taxes

## Saving North Carolinians money and energy

- 53 Homes** Made more energy efficient through TVA Home Uplifts and energy efficiency services
- \$102,975** Estimated savings by these households over the life of their energy improvements
- 4 Schools** Made more energy efficient through TVA School Uplifts or energy efficiency services
- \$298,700** Estimated savings by these schools over the lifetime of their energy improvements
- \$3.7 Million** Incentives paid in FY 2023 to two businesses agreeing to shift energy use to off-peak hours, helping reduce peak demand

TVA's Fontana Dam is the highest dam east of the Rockies and a stop along the Appalachian Trail. About 50,000 people come to TVA's Fontana Dam visitor center each year, April through October.

# Powering the Future of the Tennessee Valley Region

TVA has delivered essential services for the people of the seven-state Tennessee Valley region since 1933. We partner with 153 local power companies to serve 10 million people and about 800,000 businesses across the region. As a publicly owned utility, we bring the public and private sectors together with our 10,900 employees to deliver on TVA's mission of service by providing affordable, reliable, clean energy, caring for our community's natural resources and bringing good jobs to the region.

## Driving economic growth and new jobs

TVA's low industrial rates and reliable, clean energy bring businesses and jobs to the region. In the past five years, we've helped attract new jobs and retain existing jobs.

 **Approximately**  
**100,000**  
New Jobs Projected  
**235,000**  
Retained Jobs Projected

 **\$45.9 Billion**  
In Projected  
Capital investments

## Delivering affordable, reliable, clean energy

TVA operates one of nation's largest generation portfolios – diverse and clean

 **Self-financed with**  
**\$11.9 Billion**  
In revenue in FY 2023

 **Working to add**  
**10,000 MW of solar energy by 2035**

## Reducing emissions, stewarding resources

TVA is a committed environmental steward and national leader in reducing carbon emissions

 **Caring for over**  
**40,000 Miles**  
Of rivers, streams and  
tributaries, including 652-mile  
Tennessee River System

 **Prevented over**  
**\$9.7 Billion**  
In potential flood damage  
since 1933

**Aspiring to**  
**Net-Zero**  
**Carbon**  
**by 2050**

## Supporting our communities and their needs

TVA is a part of every community we serve

 **Helped so far**  
**1,499 Families &**  
**64 Public Schools**  
Improve energy efficiency  
through Uplift programs

 **Contributed nearly**  
**\$13.4 Million**  
To community organizations  
and the community care fund

 **Contributions include**  
**\$2.7+ Million**  
To STEM, robotics, and  
other education programs  
in partnership with BVI Inc.,
