TVA Notice

Dickson Electric System (DES) submitted a request for TVA to authorize a proposed investment of DES's revenues in its broadband division to support the deployment of commercial broadband. DES is subject to TVA's regulation pursuant to Section 10 of the TVA Act and the terms of its wholesale power contract with TVA. TVA has reviewed DES's request and hereby gives notice that TVA has authorized DES to invest electric system revenues in its broadband division, in an amount not to exceed \$9,250,000. TVA estimates that the total investment for both electric and commercial broadband will not have any rate impacts on consumers.

The broadband division must enter into a use of funds agreement consistent with TVA's regulation. Specifically, the use of funds agreement will require the investment be repaid with 4% interest in 20 years and will contain risk mitigation and compliance measures designed to protect DES's electric consumers.

If you have questions or need additional information, please contact DES's Elizabeth Kuhns at Post Office Box 627, Dickson, Tennessee 37056-0627 or by email at broadband@dicksonelectric.com or by phone at (615) 446-9051.
