### **TVA Notice**

Murray Electric System (MES) submitted a request for TVA to authorize a proposed investment of MES's electric system revenues in its broadband division to support the deployment of commercial broadband. MES is subject to TVA's regulation pursuant to Section 10 of the TVA Act and the wholesale power contract between MES and TVA. TVA has reviewed MES's request and hereby gives notice that TVA has authorized MES's electric division to invest electric system revenues in its broadband division, in an amount not to exceed \$557,103 for 20 years. TVA estimates that the total investment for both electric and commercial broadband will not have any rate impacts on consumers.

MES's broadband division is required to enter into a use of funds agreement consistent with TVA's regulation. Specifically, the use of funds agreement will require the investment be repaid with interest and will contain risk mitigation and compliance measures designed to protect electric consumers.

If you have questions or need additional information, please contact MES's Tony Thompson, General Manager, at P.O. Box 1095, Murray, Kentucky 42071-1095, (270) 753-5312, or [tthompson@murrayelectric.net](mailto:tthompson@murrayelectric.net).
