

2018 HISTORICAL PRODUCT CONTENT LABEL

Green Power Switch Southeastern RECs is a voluntary renewable energy program from Tennessee Valley Authority and participating local power companies. The product is sold in megawatt-hours (MWh) with a minimum purchase of 2,000 MWh/year. The product is made up of the following new renewable resources.

Green-e Energy Certified New Renewables² in Green Power Switch Southeastern RECs		Generation Location
	2018 ¹	2018 ¹
Wind	100%	IL
Total	100%	

1. These figures reflect the electricity delivered to Green Power Switch Southeastern RECs customers in 2018.

2. New Renewables come from generation facilities that first began commercial operation within the past 15 years.

For comparison, the current average mix of resources TVA has purchased or generated includes: Nuclear (39%), Natural Gas and/or oil (20%), Coal (19%), Hydroelectric (9%), Other Non-Renewable (9%), Wind (2.5%), Co-gen (1.5%), and Other Renewable (<.5%). [Source: TVA FY2018]

The average home in the Tennessee Valley uses 1200 kWh per month. [Source: TVA]

For specific information about this electricity product, please contact your local power company or TVA Green Power Switch at greenpowerswitch@tva.gov, the toll free Renewable Energy Information Call Center at 1-866-673-4340, or visit www.greenpowerswitch.com.

Green Power Switch is Green-e Energy certified, and meets the environmental and consumer-protection standards set forth by the non-profit Center for Resource Solutions. Learn more at www.green-e.org.
