ENGINEERING "NO-RISE" CERTIFICATION FOR ENCROACHMENT UPON THE NO-FILL LINE

This is to certify that I am a duly qualified engineer licensed to practice in the state of Tennessee. It is to further certify that the attached technical data supports the fact that proposed Knoxville South Waterfront will not impact the Base Flood Elevations (100-year flood), floodplain elevations and the floodplain widths on Tennessee River at published sections in the Flood Insurance Study for City of Knoxville (475434), dated May 2, 2007

and will not impact the Base Flood Elevations (100-year flood), floodplain elevations, and floodplain * floodplain widths at unpublished cross-sections in the vicinity of the proposed development. will change slightly in horizontal plane where minor grading of riverbank will occur.

* The minimum flood required for FEMA floodplain analysis is the 100-year flood, unless local regulations are stricter.
** The base flood for the No-Fill Line only, in the City of Knoxville, is defined as the 100-year flood, without floodway.
