**SUPPLEMENTARY INFORMATION:** On June 8, 2017, TVA published a notice of Proposed Rulemaking in the **Federal Register** (82 FR 26620) to revise TVA's implementing procedures for assessing the effects of TVA's actions in accordance with NEPA, as amended (42 U.S.C. 4321 *et seq.*). TVA requested comments from the public during a 60-day public review period. As discussed in that earlier document, the proposed amendments include: (1) Updates to organizational references to clarify roles and responsibilities within TVA; (2) acknowledgement of the use of modern notification and communication methods to improve public participation; (3) revisions to TVA's list of categorical exclusions to include common actions that have been demonstrated to have little effect on the human environment and to remove categorical exclusions for actions which TVA rarely or no longer undertakes; (4) instructions to incorporate Executive Order 13690; and (5) revisions to improve the clarity of the procedures and remove redundant and outdated information. TVA proposes to publish the amended procedures as rules to be codified in Chapter XIII (Tennessee Valley Authority) as part 1318 of the Code of Federal Regulations (18 CFR part 1318). The key changes to the procedures proposed by TVA are described in detail in the notice.

After publication of the notice, TVA received several requests by stakeholders to extend the comment period to allow for additional time to review the amendments. TVA determined that extending the period by 30 days is appropriate. The TVA Web site listed above contains relevant information relating to the proposed amendments, and TVA urges the public to review this information prior to submitting comments.
