Committed Land - Under current agreement, used for project operations, with sensitive resources, or for public recreation land.
 Uncommitted Land - Land that is considered "Plannable."

This map reflects the decision by the TVA Board of Directors to exclude the parcels of the 2009 Watts Bar Reservoir Land Management Plan impacted by the December 2008 coal ash spill at the Kingston Fossil Plant. Also see the associated ERRATA sheet for the Final Environmental Impact Statement.

This map is made available to the public for general information purposes only. Boundaries and landrights should be determined by the recorded deeded instruments and appropriate surveys. For additional information, please contact the Environmental Information Center at 1-800-882-5263.
