

Tennessee Valley Authority Privacy Impact Assessment (PIA)

Siting and Environmental Design Data (SEDD)

This PIA is a tool used by the TVA Privacy Office to identify privacy risks at the planning/initiation phase of the system development lifecycle (SDLC) or early stages of project/program development. The PIA should be reviewed and updated on an annual basis, or sooner, if the system undergoes a major change. Questions regarding this document should be directed to privacy@tva.gov.

PIA should be submitted to: TVA Privacy Office privacy@tva.gov

> Version 3.0 September 2018

Privacy Impact Assessment

8. What consent options do individuals have regarding specific uses or sharing of their information?

<Please describe any choices around use of PII. For example, are individuals able to "opt-out" of the collection of information? If so, are there any impacts/consequences of not providing the requested information?>

Individuals do not have to provide information. It is only requested that they do so in order to contact them regarding new projects that might impact their existing property. We do not share their information without consent.

DATA MINIMIZATION

	Are only the minimum PII elements that are relevant and necessary to accomplish the legally authorized purpose collected, used and retained? • Yes No
10.	What are the retention periods for the information in the system?
	Contact information and conversations are recorded in our SEDD database indefinitely.
	DATA QUALITY
11.	How is data quality (i.e., accuracy, relevance, timeliness, and completeness) ensured throughout the data lifecycle and business processes associated with the use of the information? Check all that apply. Information is collected directly from individuals (preferred method of collection, whenever possible) If collected via a form, please list form(s) name and number here:
	Cross referencing information enties with other systems Third party information verification
	☐ Character limits on text submissions ☐ Numerical restrictions in text boxes
	Other:
12.	How is inaccurate or outdated information checked for and corrected?
	The SEDD database is a one-time collection of present property owner information during the time of initial siting activities. It is not updated after the project is in service.
	Access and Redress
13.	How can an individual access their information and have it corrected, amended, or deleted?
	Individuals do not have access to the SEDD database.
	Internal and External Sharing
14.	Explain how the information in the system is limited to the uses specified in the notices discussed above.
	Information is limited to the system admin.

15.	With which (if any) internal TVA systems is the information shared?						
	SEDD, Power BI						
16.	With which (if any) organizations external to TVA is information shared?						
	None.						
17.	Does the system have any associated websites/applications including an external TVA website or third-party owned or managed website or application (e.g., Facebook, YouTube, Twitter, Flicker, etc.)? Yes No						
	SECURITY						
18.	What privacy orientation or training is provided to authorized users of the system or individuals with access to the system?						
19.	Has a FIPS 199 determination been made?						
20.	What is the FIPS 199 determination? Check one for each.						
21.	What types of technical safeguards are in place to protect the information?						
22.	What types of physical safeguards exist to protect the information?						

23. What types of administrative safeguards exist to protect the information?

24. What monitoring, recording, and auditing safeguards are in place to prevent or detect unauthorized access or inappropriate usage?

All monitoring, recording, and auditing safeguards are in place by TVA Cybersecurity.

25. Discuss any other potential privacy risks to the information within the system and safeguards that are in place to mitigate those risks.

None.

Please submit completed form to: TVA Privacy Office
