# The Latest From Connected Communities

# Accelerating Progress and Overcoming Challenges

We're helping communities embrace technology and data solutions to overcome their challenges and prepare to be part of the energy system of the future.

## FOCUS AREAS

**Broadband and Digital Literacy**

**Economic Empowerment**

**Energy and Environmental Justice**

**Enhanced Community Resiliency**

## RESOURCES

**Community Information Hub and Website**

**Tailored Support and Success Coaching through Partnerships**

**Pilot Project Funding**

**Network to Share Information and Success Models**

# Conference Overview

## HIGHLIGHTS

- September 24 – 25 in Franklin, TN
- Approximately 150 attendees including:
  - Community leaders
  - TVA leaders
  - State / regional / federal stakeholders leading work related to initiative focus areas
- Attendees participated in a Pilot Project Tour, exploring Cheatham County School District's solar and storage system
- Attendees heard from over 30 panelists about their experiences working in collaboration with our initiative to make progress in our four focus areas
- We can't wait for next year!

## Upcoming Webinar

**Solar for All:**  
Leveraging Federal funds to advance your  
community's priorities

Tuesday, Nov. 12, 1:00 – 2:00 pm ET

REGISTER NOW

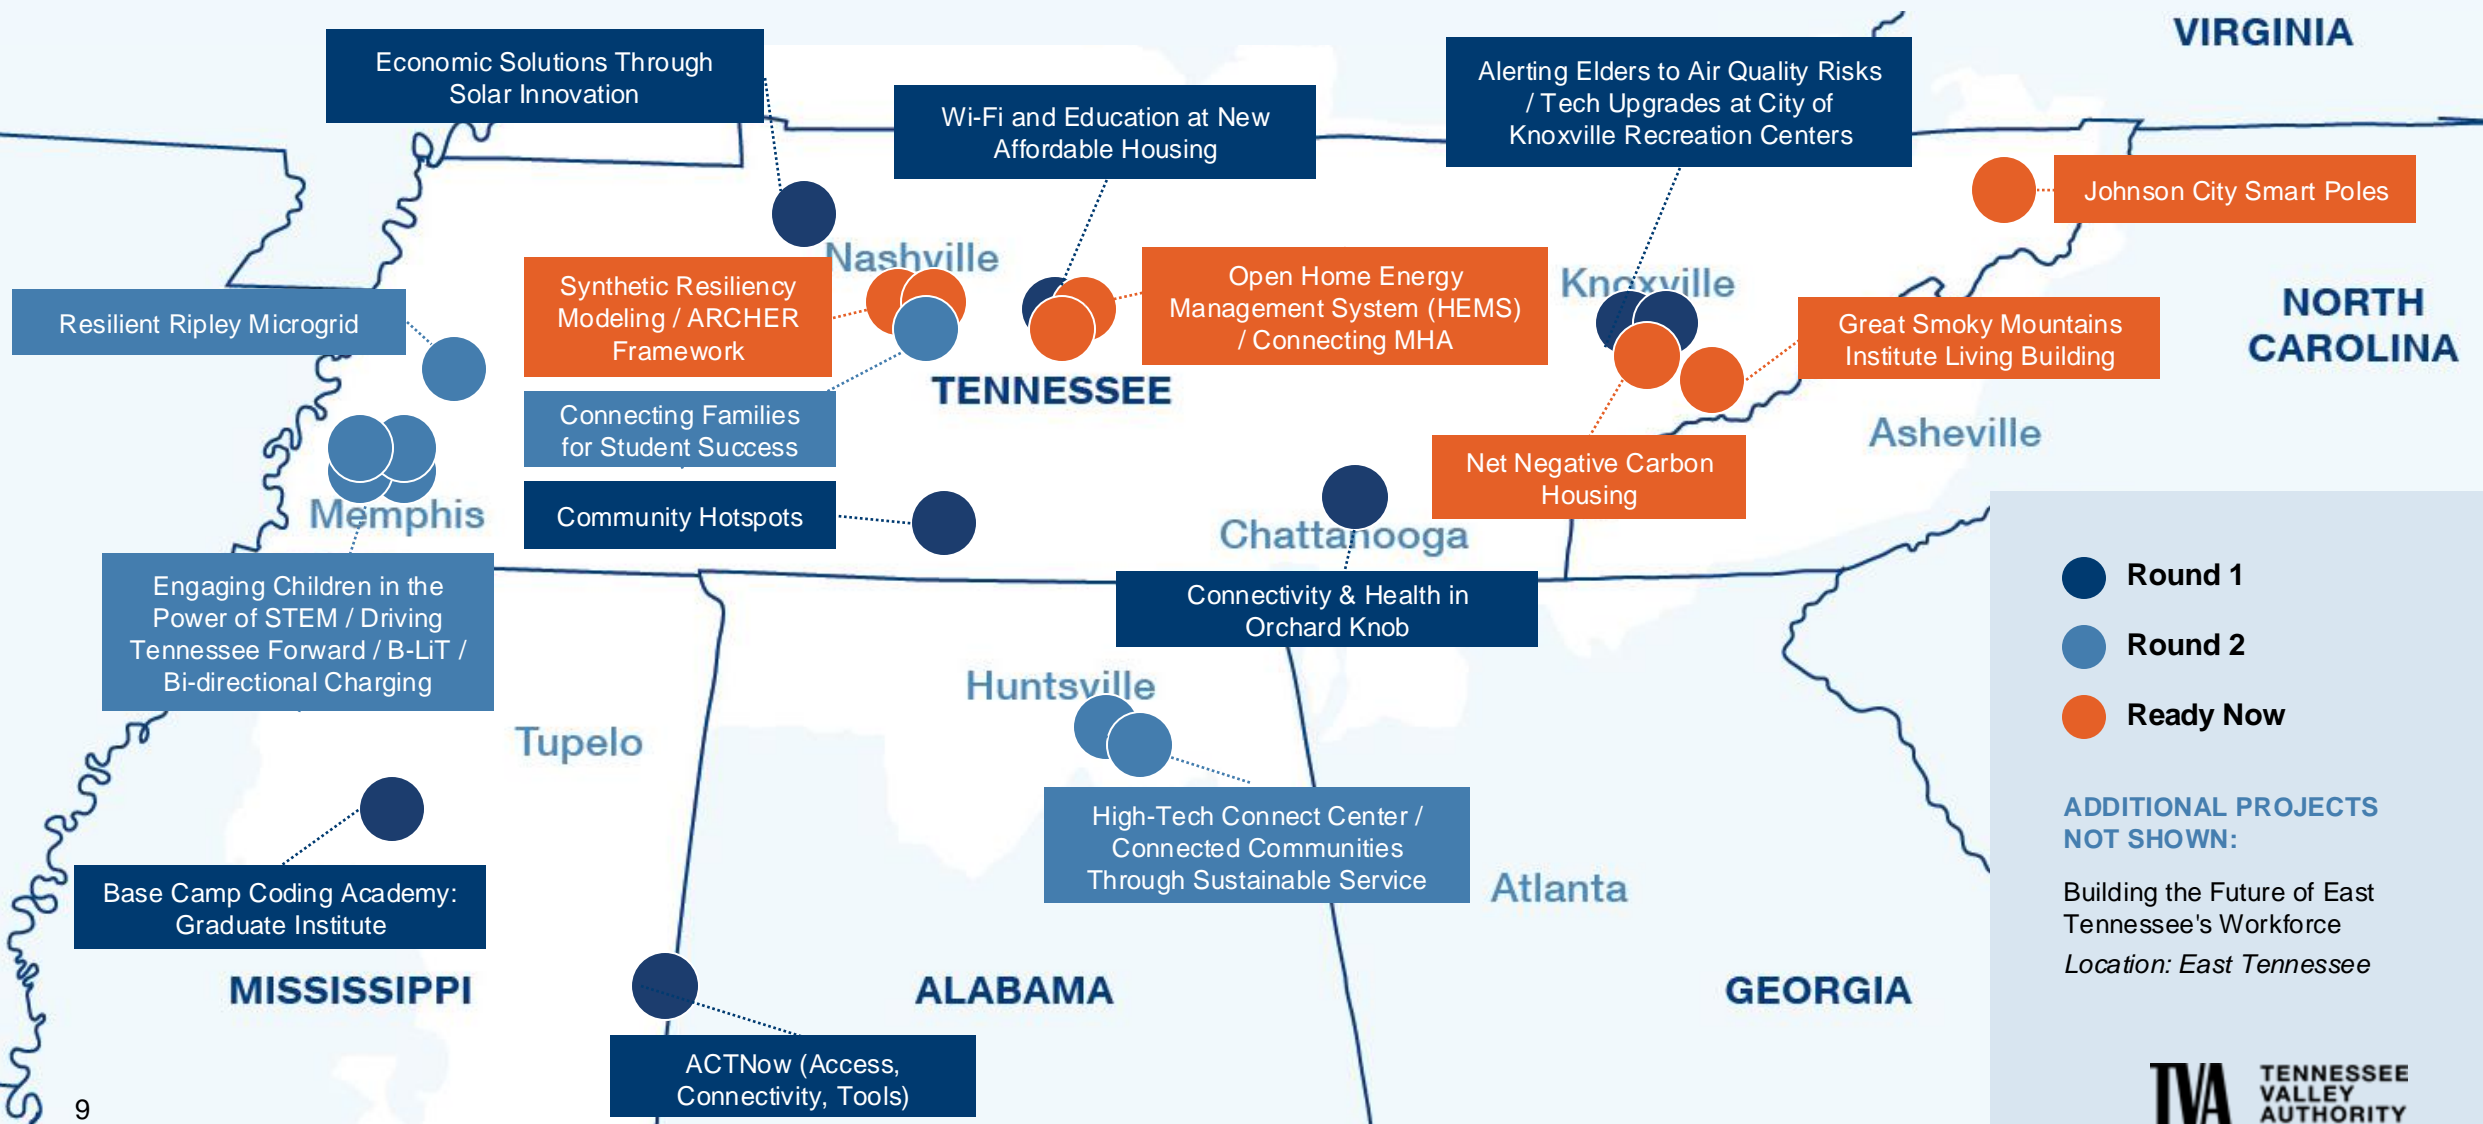

# Community Partnerships: Recruiting Round 2

- Round 1
- Round 2

# Pilot Project Portfolio

- Round 1
- Round 2
- Ready Now

**ADDITIONAL PROJECTS NOT SHOWN:**  
 Building the Future of East Tennessee's Workforce  
 Location: East Tennessee

# Community Information Hub

# Community Information Hub

An interactive tool to help **assess your community's needs, prioritize solutions and identify funding opportunities.**

# Community Information Hub Resources

## Community Assessment Tool

Offers framework to assess current conditions across 25 progress indicators and generates a community score card capturing the current level of progress toward milestones in four focus areas.

## Community Maps

One-stop-shop for publicly-available economic and demographic data. The interactive map includes all U.S. Census Bureau-defined census tracts in the TVA service area and includes data from a variety of U.S. federal sources.

## Resource Database

Aims to help communities identify opportunities and learn from other communities' efforts through a collection of concepts, examples, programs, reports, data platforms, grants, tax credits, policies and organizations from across the U.S.

## Funding Opportunities Database

Provides in-depth information regarding new funding opportunities for topics like broadband, economic development, job training, and more. Users can filter funding resources by various criteria such as state(s), funding entities, and maximum amount.

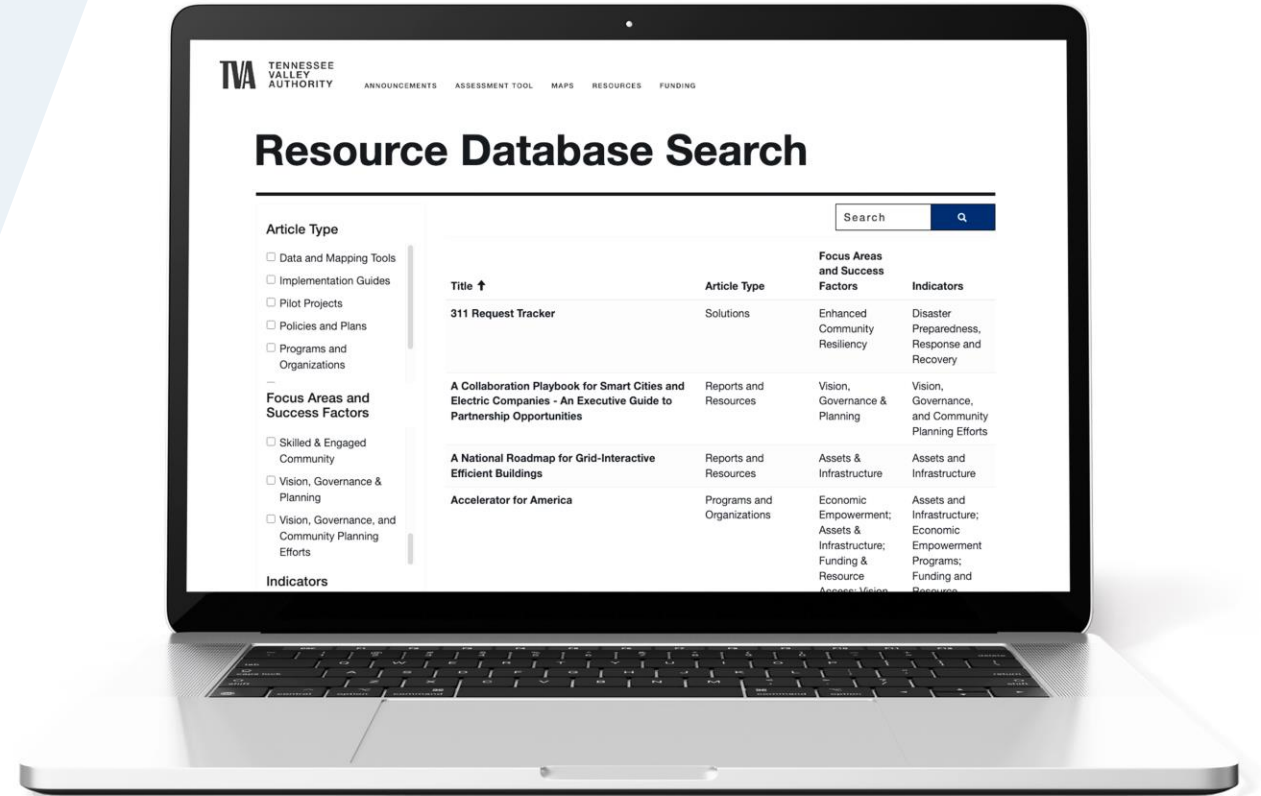

---

# Resource Database

# Resource Database

Knowledge article database that helps communities identify opportunities and learn from other communities' efforts.

---

# Types of Knowledge Articles

1

---

## Data and Mapping Tools

Provides information on a particular data source or mapping platform

2

---

## Implementation Guides

Summarizes and links a Connected Communities informational guide

3

---

## Reports and Resources

Summarizes and links a report, article, or website

4

---

## Programs and Organizations

Describes and links a model program or organization

5

---

## Policies and Plans

Describes and links a relevant policy or plan

6

---

## Pilot Projects

Provides an executive summary of a Connected Communities pilot project

7

---

## Solutions

Provides key information on and links case studies of innovative technologies and approaches

---

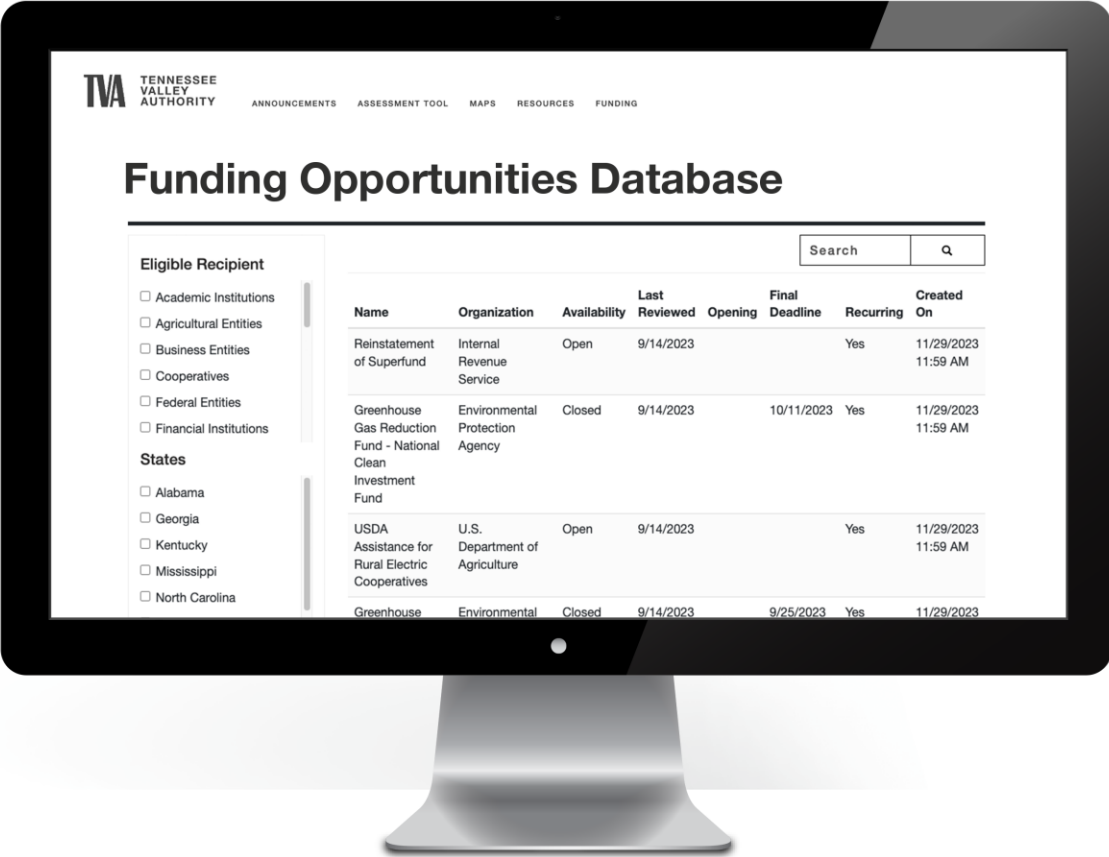

# Funding Database

# Funding Opportunities Database

Provides in-depth information regarding new funding opportunities for relevant topics. Users can search for funding resources using various criteria such as state(s), funding entities, and maximum amount.

# Types of Funding Opportunities

1

## Discretionary / Competitive Grants

Funds awarded to winning entities and projects at the end of a competitive application process. Grants do not require repayment.

2

## Formula Grants

Funding allocated to eligible applicants based on a set of eligibility requirements. All eligible organizations who apply will receive funding and repayment is not required.

3

## Loans

Low-interest loans or loan guarantees provided to finance eligible community projects. Loans often provide access to larger funding amounts than grants and typically require repayment over a long period of time.

4

## Rebates

Direct cash payment reimbursements or bill credits to reimburse eligible applicants for purchasing certain types of technology or enrolling in a specific program, most often for energy-efficient products or energy-savings programs.

5

## Tax Credits

Reimbursements for certain types of investments (e.g., electric vehicles), awarded through directly reducing the amount of tax a person or entity owes and captured after filing a tax return. Under the IRA, the new Direct Pay provision allows tax-exempt entities to benefit from tax credits in the form of cash payments.

---

# Sources of Funding Opportunities

---

## Federal

Funding program administered by federal government agencies or departments, such as the Department of Energy.

---

## State

Funding program administered by state government agencies or departments, such as Tennessee Department of Economic & Community Development.

---

## Local

Funding program administered by local government agencies or departments, such as the City of Asheville Community and Economic Development, or local private organizations and foundations, such as the Community Foundation of Greater Chattanooga.

---

# Key Terms in the Funding Database

## Contact

Shares any available contact information provided by the funding organization.

## Cost Share

Indicates if the applicant will be required to provide any funding of their own in addition to the funding they may be awarded. For example, some grant programs require applicants to “match” the funding amount being awarded to them for their project, therefore requiring the applicant to pay for 50% of the project themselves.

## Eligibility

Describes eligibility criteria for applicants and/or projects.

## Eligible Recipients

Indicates which type of entities are eligible to apply for and receive funding from the program.

## Final Deadline

Date the most recent funding application window closed or will close.

## Funding Total

Refers to the total amount (\$) the funding entity is distributing through the program to all applicants for the current application period.

## Maximum Amount

Refers to the maximum grant/loan amount (\$) per applicant.

## Opening

Date the most recent funding application window most opened or will open.

## Organization

Entity (e.g., government agency) providing funding and administering the funding program.

## Recurring

Indicates if a program is a one-time opportunity or if it reopens for applications on a regular basis (e.g., annually)

# Community Funding Guidebook

Interested in exploring funding opportunities but overwhelmed with where to start? The Community Funding Guidebook provides an overview of different types of funding, details of specific funding opportunities and best practices for pursuing funding.

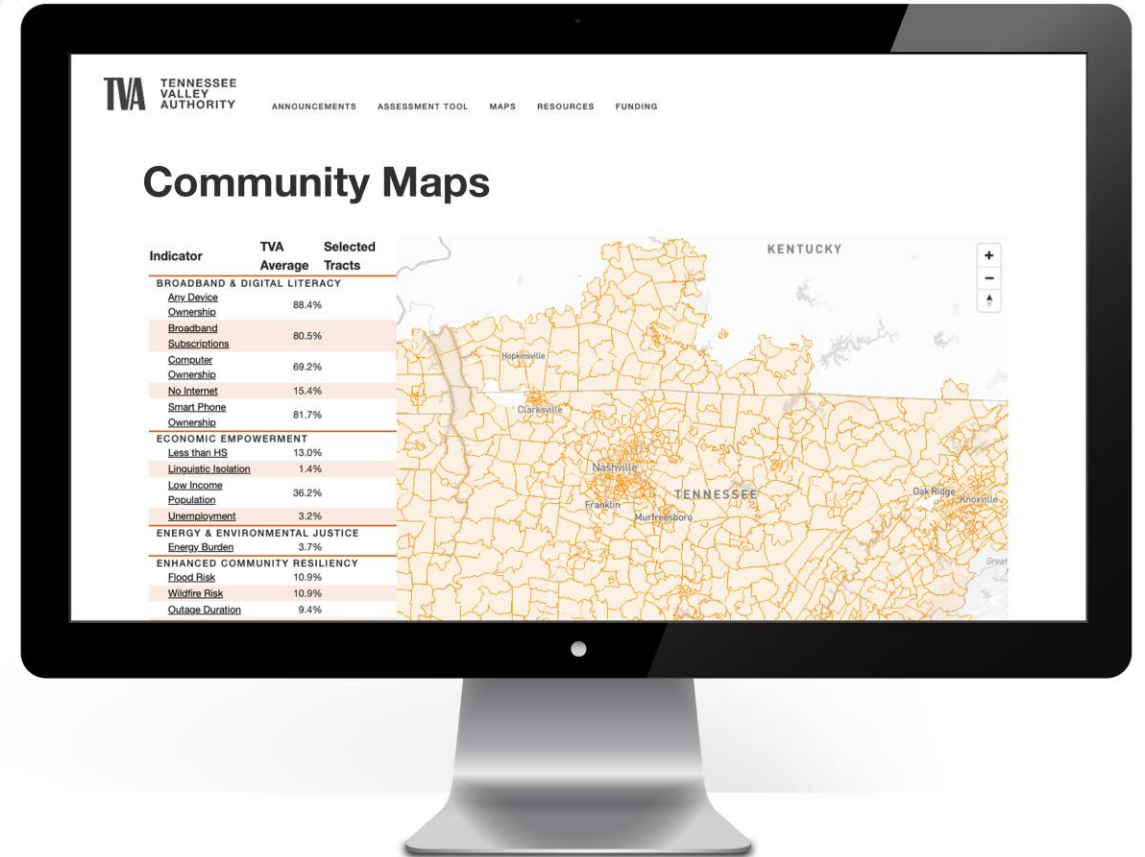

---

# Community Maps

# Community Maps

One-stop-shop for publicly-available economic and demographic data. The interactive map includes all U.S. Census Bureau-defined census tracts in the TVA service area and includes data from a variety of U.S. federal sources.

# Key Features of Community Maps

## 1 Indicator

“Indicator” measures the status of communities in each of the Connected Communities focus areas.

## 2 TVA Average

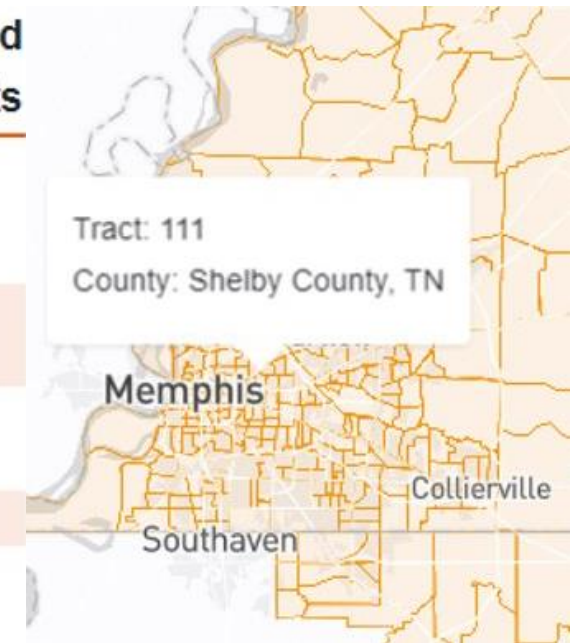

“TVA Average” provides the average for each indicator across all census tracts within the TVA service area.

## 3 Selected Tracts

“Selected Tracts” provides the average for each indicator within the selected census tract(s).

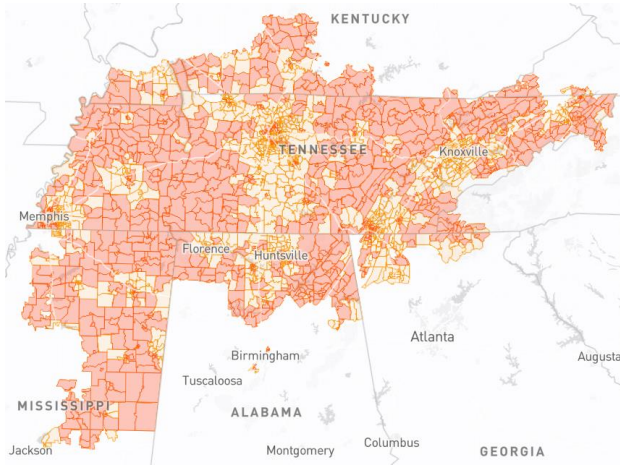

### EXAMPLE

1 Indicator	2 TVA Average	3 Selected Tracts
BROADBAND & DIGITAL LITERACY		
<u>Any Device Ownership</u>	89.2%	
<u>Broadband Subscriptions</u>	81.3%	
<u>Computer Ownership</u>	69.9%	
<u>No Internet</u>	15.8%	
<u>Smart Phone Ownership</u>	82.6%	

# Key Features of Community Maps (CONTINUED)

## Disadvantaged Tracts

highlight and filter selected census tracts to areas designated as “disadvantaged” by the Climate and Economic Justice Screening Tool.

- Show Disadvantaged Tracts
- Show Urban Tracts
- Show Rural Tracts

## Urban Tracts

highlight and filter selected census tracts to areas designated as “urban” by the U.S. Census Bureau.

- Show Disadvantaged Tracts
- Show Urban Tracts
- Show Rural Tracts

## Rural Tracts

highlight and filter selected census tracts to areas designated as “rural” by the U.S. Census Bureau.

- Show Disadvantaged Tracts
- Show Urban Tracts
- Show Rural Tracts

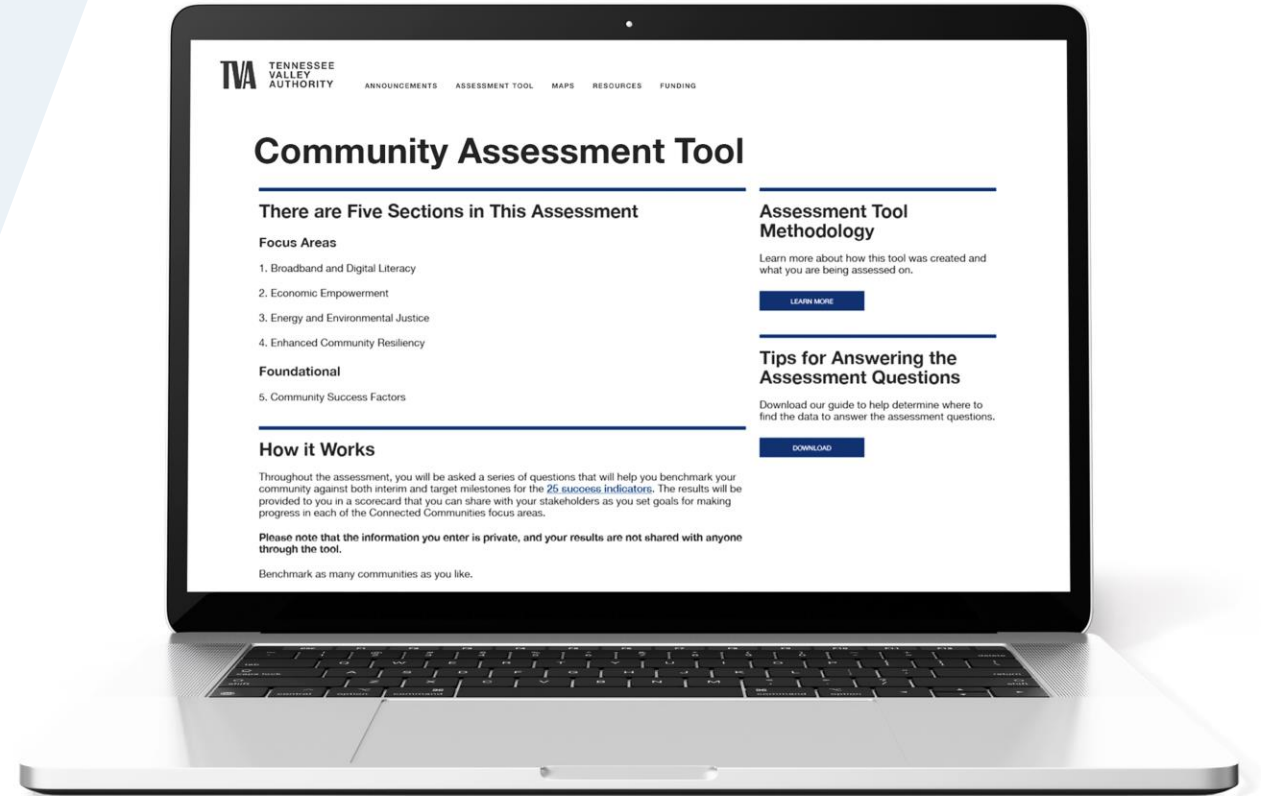

---

# Community Assessment Tool

# Community Assessment Tool

Interactive questionnaire you can use to benchmark your community's status across key progress indicators.

# Overview of Community Assessment Tool

## HOW IT WORKS

1

### Focus Area Questions

The assessment consists of **five sections** of questions within each Connected Communities focus area.

2

### Progress Indicators

Questions correlate to interim and target milestones for **25 total progress indicators** across all focus areas.

3

### Community Score Card

The assessment generates a **community score card** capturing the current level of progress toward milestones in four focus areas.

## WHO IT'S FOR

The assessment is created for **community stakeholders** who want to:

- **Gauge current conditions** for their community
- Follow a systematic approach to **set goals and priorities** (e.g., to determine what funding to pursue)

---

# Methods of Research

Use the following methods of research and view our [Community Assessment Tool Research Guide](#) when determining where to find data to answer assessment questions.

---

## Access Data Through Community Maps

Use the Community Information Hub's Community Maps Tool to access census data.

### EXAMPLE

The percentage of households in your community with broadband access can be found by using the community maps, selecting census tracts in your community, and viewing the "broadband subscriptions" indicator for selected tracts.

---

## Conduct Online Research

Some of the questions will require you to conduct online research to answer.

### EXAMPLE

You can identify if your community has identified appropriate sites for public Wi-Fi locations by conducting online research to determine if there are local libraries, schools, etc. that offer free public Wi-Fi or have plans to offer Wi-Fi.

---

## Contact Local Entities

Reach out directly to entities like local power companies and local government.

### EXAMPLE

Determining if your community has or is developing a Comprehensive Plan may require reaching out to your local government planning department.
