## Virtual Public Scoping Open House

### Clinch River Nuclear Site Advanced Nuclear Reactor Technology Park Programmatic Environmental Impact Statement

The purpose of this virtual open house is to inform the public of TVA's intent to prepare a Programmatic Environmental Impact Statement (EIS) for the Clinch River Nuclear Site (CRN).

TVA is hosting this open house virtually due to the ongoing COVID-19 pandemic.

We thank you for your interest and hope you enjoy your time with us.

The CRN Site is located on 935-acres of TVA land in Oak Ridge, Roane County, Tennessee adjacent to US Department of Energy Oak Ridge Reservation.
