TENNESSEE VALLEY AUTHORITY

TIMS FORD RESERVOIR LAND MANAGEMENT PLAN REVISION

FRANKLIN AND MOORE COUNTIES, TENNESSEE

ENVIRONMENTAL ASSESSMENT

The 2026 Tims Ford Reservoir Land Management Plan (RLMP) Environmental Assessment (EA) has a minor mapping error (0.04 acre) that was discovered after the EA was completed. The boundary between Parcel 108, (22.56 acres) allocated as Zone 4 (Natural Resource Conservation), and Parcel 110 (0.99 acre), allocated as Zone 7 with Restrictions (Shoreline Access), was mistakenly adjusted during the lands planning process and it should have remained as it was in the 2000 Tims Ford RLMP.

Parcels 108 and 110 are located in Franklin County and are shown on Panel 2 of the 2026 Tims Ford RLMP map at www.tva.com/landplans.

The mapping error was made due to a historical issue between TVA and the State of Tennessee (State) where this tract was overlooked in the 2010 land transfer between TVA and the State. See Section 2.1 of the 2026 RLMP for more about the 2010 land transfer. The State is in the process of transferring a portion of this parcel to TVA and this tract was treated differently during the lands planning process as a result.

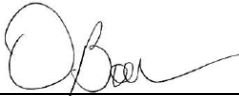

The boundary for Parcels 108 and 110 have been adjusted in the 2026 RLMP to correct the error. See Figures 1 and 2 below for a comparison of the parcels before and after the correction.
