

Delivering Sustainable Solutions

TVA remains committed to building a better tomorrow for the people it serves today. This has been TVA's unwavering focus during its 90-year history and will be for decades to come.

A mission that matters

For TVA, sustainability means providing affordable and reliable energy, a healthy environment and a prosperous economy – now and for future generations.

TVA operates one of the largest, cleanest and most diverse energy systems in the country, with more than half its energy supply coming from carbon-free energy sources. TVA aspires to achieve net-zero carbon emissions by 2050 and is focused on innovative projects and partnerships in new nuclear, renewable energy, energy storage and hydrogen.

Sustainability for TVA means ensuring its ability to provide the region with affordable and reliable energy, a healthy environment, and a prosperous economy – now and for future generations.

TVA's sustainability work focuses on four areas: Economic Impact, Environment, Social and Governance. In a changing world, TVA believes operating transparently, sustainably and with strong governance is not just good business; it is the foundation to building a brighter tomorrow.

Below are just a few of TVA's many sustainability accomplishments in FY 2022:

- Helped attract \$10.2 billion in projected capital investments – with 26,512 jobs expected to be created and 40,027 jobs retained
- Advanced its Environmental Justice Program to help address disproportionate health, environmental, economic and climate impacts on disadvantaged communities
- Donated more than \$9 million in community contributions and disaster relief
- Announced a partnership with the Baker Center for Public Policy at the University of Tennessee to study ways all segments of the economy can move the region toward a clean, secure energy future
- Sponsored 449 total environmental outreach and stewardship projects across the region
- Completed 120 biodiversity projects and initiatives
- Prevented an estimated \$3 million in flood damage along the Tennessee River
