

**EMERGENCY PREPAREDNESS INFORMATION TO BE FURNISHED TO ALL PERSONNEL
WORKING ON OR NEAR A TVA NUCLEAR SITE**

The following information is related to TVA Emergency Preparedness within the area owned and operated by the Tennessee Valley Authority (TVA) for nuclear Sites. In the unlikely event of an accident, all on-Site personnel will be notified by one of the following means:

Sirens would be sounded for three minutes. (See Site-specific information below for routine siren test schedule.)

TVA personnel may enter the area and provide instructions.

If Contractor or Subcontractor personnel are alerted by either of the above, they should:

1. If TVA personnel are present, follow their instructions.
2. If no TVA personnel are present, and the sirens are not sounding during the test schedule below, Contractor personnel should immediately exit TVA property.
3. As soon as possible, listen to one of the radio stations noted below for any additional information which may be provided by State Authorities.
4. If there is a potential that Contractor personnel may have been exposed to radioactive material, he or she would be instructed to go to a designated location for monitoring or decontamination.

For further information on these emergency plans, please contact TVA Emergency Preparedness at the numbers listed below.
